DPK 125

Features

- Designed for wall mounting or installation into false ceilings.
- Special aerodynamic shape ensures uniform air distribution.
- Easy mounting with a mounting flange and screws.
- External removable grille for maintenance and cleaning.
- Compatible with all decorative panels of the **Design Konzept** system.

Options

- The DPK 125 modification additionally includes the airflow regulator R 125 DPK to regulate the airflow through the diffuser. The airflow regulator is made of ethylene vinyl acetate (EVA), which is moisture-resistant and easy to clean.
